

# RECREATIONAL FIRES

Recreational Fires are enjoyable for all of our citizens. However, we want them to be safe for everyone, so please follow these requirements:

- Natural cut wood: log size can be 3 foot long and no larger than 12 inches in diameter (brush, pine needles, processed lumber, grass, painted materials, etc. are prohibited from being burned.)
- Excessive tree and rubbish materials cannot be burned.
- Pile size should be less than 3-feet with a flame no higher than 2-feet.
- The recreational fire must be more than 25-feet from any structure or combustible material.
- The recreational fire must be constantly attended.
- An extinguishing agent must be readily available (such as a hose and/or sand).

## Portable Fire Pits:

- They must be more than 15 feet from any structure or combustible material.
- An extinguishing agent must be readily available (such as a hose and/or sand).

Bonfires require prior approval from a Fire Official.
