

SAFETY TIPS

From Your Building Inspector

The Sound of Safety

What is the most important thing to remember when installing a smoke alarm?

Location, location, location!

Smoke Alarm Safety:

- Install at least one smoke alarm in every bedroom, outside of each sleeping room area and on each level of a multi-level building.
- Test each smoke alarm regularly.
- Keep batteries fresh by replacing them annually.

Smoke alarms can't help you unless they are functional and you can hear them. Building safety codes require smoke alarms. Contact your local building safety department for more information.
