

AGENDA 7c
DATE 8-20-19
Internal Memo

August 14, 2019

TO: Mark C. Meyers, City Administrator
FROM: James R. Murphy, City Engineer 
RE: Request for Qualifications and Proposals for Engineering Services, Sheffield Pump Station Replacement and Potential Henry Street Pump Station Elimination

I am requesting authorization to solicit qualifications and proposals for Engineering Services for the replacement of pump station on Sheffield Street (north of Summit Avenue) and analysis for the potential elimination of the pump station at 3180 Henry Street. The requested design funds are allocated in the current FY-20 budget from the Sewer Fund.

It is our desire to start the design of this project in FY-20 so that the design work can be completed for early bids in FY-21.

I would appreciate it if you would place this request on the August 20, 2019 City Council meeting agenda.
